

Acoustic Felt Wall Panel

Acoustic Felt Wall Panel is formed by high temperature and high pressure by needle punching processing, and the porosity is above 90%.

China Customized Acoustic Felt Wall Panel Factory

We support our customers with ideal premium quality products and solutions and superior level assistance. Becoming the specialist manufacturer in this sector, now we have received rich practical experience in producing and managing for Factory Cheap Hot China Wall Panel Polyester Panel Polyester Sound Absorber Acoustic Felt Wall Panel, We warmly welcome merchants from your home and overseas to call us and build business connection with us, and we are going to do our greatest to serve you. Factory Cheap Hot China Ceiling Board, Decorative Ceiling, By integrating manufacturing with foreign trade sectors, we can provide total customer solutions by guaranteeing the delivery of right goods to the right place at the right time, which is supported by our abundant experiences, powerful production capability, consistent quality, diversified items and the control of the industry trend as well as our maturity before and after sales services. We'd like to share our ideas with you and welcome your comments and questions.

1.Introduction of Polyester fiber acoustic panel

Polyester fiber acoustic panel is formed by high temperature and high pressure by needle punching processing, and the porosity is above 90%. We have patents technique for permanent fire retardant with our acoustic panels. We have more than 44 colors for you to selection. You can also cut the acoustic board into any shape as your requests.

It is designed primarily for commercial interiors:

- as a perfect replacement panel for textile-covered tiles in workstation systems

- to provide a lighter, more flexible and recyclable wall panel and demountable partitioning system
- an acoustic panel system
- a sustainable substitute for ceiling tiles and soft floor applications.

Our Polyester fiber acoustic panel can be used in many public places like cinema, theaters, dance halls, auditorium, multi-purpose hall, gymnasium etc. The sound absorption property of Polyester fiber acoustic panel is good in the range of middle and high frequency. It has the advantages of heat insulation, fire retardant, dust prevention, light weight and no decay, also has better sound absorption effects, high strength, good decoration, easy installation, environmental friendly.
