

Art Acoustic Panel

Art Acoustic Panel is synthesized by high temperature and high pressure by needle punching processing, and the porosity is above 90%.

Customized Art Acoustic Panel Made in China

We believe that long time period partnership is a result of top of the range, value added services, rich expertise and personal contact for High Quality China 100% Pet Printed Acoustic Art Panels for Acoustical Office, We warmly welcome customers from all around the environment for any style of cooperation with us to make a mutual advantage long run. We are devoting ourselves wholeheartedly to supply consumers the best service. High Quality China Printed Acoustic Panels, Print Acoustic Panels, With the principle of win-win, we hope to help you make more profits in the market. An opportunity is not to be caught, but to be created. Any trading companies or distributors from any countries are welcomed.

1.Introduction of Polyester fiber acoustic panel

Polyester fiber acoustic panel is synthesized by high temperature and high pressure by needle punching processing, and the porosity is above 90%. We also have patent technique for permanent fire retardant with our acoustic panels. There are more than 44 colors for you to select. The acoustic board can be cut into any shape as your requirements.

Our Polyester fiber acoustic panel can be used in many public places like cinema, theaters, dance halls, auditorium, multi-purpose hall, gymnasium etc. Polyester Acoustic Panel is ideal to provide a practical and felt like design solution for any wall situation. It provides not only a colorful felt like finish but also has strong acoustic benefits as well.

Polyester Acoustic Panel is about one third the weight of MDF or plasterboard in equivalent sizes. It is a face finished product, pin-able, slim and is can be used as double sided or single sided panel,

giving it the desirable benefits of fitting into slim-line framing systems and requiring less bulk in coping with its light weight.

Due to it being a finished surface in itself, Echo Panel reduces costs in labor and materials in many applications, including workstations and wall panel.

2.Specification Of Polyester fiber acoustic panel

Product Name	Art Acoustic Panel
Material	100% Polyester Fiber
Density	200kg/m ³
Weight	1.8kg/m ³
Size	1220*2420mm
Thickness	3mm - 15mm or customized thickness
Flame retardant (CNS)	B1
FSI	Class A
NRC	0.85-0.95
ECO Grade	E1
Certificates	American CA117, British BS5852, Australian AS1530, CE
Colors	More than 44 colors available or customized colors
