

## Cinema Fabric Wrapped Acoustic Panels

QDBOSS Cinema Fabric Wrapped Acoustic Panels use high quality fiberglass board with different flame retardant fabric. This type of acoustic panel is environmental friendly, widely used, sound absorption, well decorative, easy installation, no dust pollution etc.

### Cheap Cinema Fabric Wrapped Acoustic Panels Made In China

We believe that extensive time period partnership can be a result of top quality, price added support, loaded encounter and personal contact for Cheap price China Cinema Fabric Wrapped Acoustic Panels, We welcome new and aged consumers to speak to us by telephone or send out us inquiries by mail for long term company associations and attaining mutual results. Cheap price China Cinema Fabric Wrapped Acoustic Panels, Acoustic Panel, We welcome you to visit our company and factory. It is also convenient to visit our website. Our sales team will offer you the best service. If you need more information, please feel free to contact us by E-mail or telephone. We are sincerely hope to establish a good long-term business relationship with you through this opportunity, based on equal, mutual benefit from now till the future.

#### 1.Introduction of Cinema fabric wrapped acoustic panels

QDBOSS Fabric wrapped acoustic panel uses high quality fiberglass board with different flame retardant fabric. This type of acoustic panel is environmental friendly, widely used, sound absorption, well decorative, easy installation, no dust pollution etc. The fiberglass board is much more eco-friendly than rockwool board, less pollution in production process. The Cinema fabric wrapped acoustic panels is designed to absorb harsh, distracting noises including echo and reverb to help the right sound through and resonate with audiences. Hardened edges for the acoustic panel can help increase durability in Cinema, Multi-purpose Rooms, Meeting room, KTV, Hotel, Music Rooms, Auditoriums and Theaters.

## 2. Specification Of Cinema fabric wrapped acoustic panels

Product Name	Cinema fabric wrapped acoustic panels
Brand	QDBOSS
Material	Fiberglass (Glasswool) + Flame-retardant Fabric
	(polyester/acrylic fibers/polypropylene/fiberglass)
Fireproof Grade (Base)	Non-combustible, Grade A
Flame Retardant Rating (CNS)	B1/A
Overall NRC	0.95
Absorption Frequency	Low, Medium and High Frequencies
Colors	Many colors
Standard Thickness	25mm/50mm or customize
Standard Size	600x600mm, 600x1200mm or customize
APPLICATION	Sound absorbing, to reduce echo and reverb. Mounted on side wall or back wall.
