

### Eco Friendly Wall Panel

Eco Friendly Wall Panel is synthesized by high temperature and high pressure by needle punching processing, and the porosity is above 90%.

#### Buy Discount Eco Friendly Wall Panel Made in China

"Based on domestic market and expand overseas business" is our enhancement strategy for Factory Cheap Hot China Eco Friendly Wall Panel, Welcome to post your sample and color ring to allow us to produce according in your specification. Welcome your inquiry! Seeking ahead to building long-term cooperation along with you! Factory Cheap Hot China Eco Friendly Wall Panel, Building Material, Our company has a skillful sales team, strong economic foundation, great technical force, advanced equipment, complete testing means, and excellent after-sales services. Our items have beautiful appearance, fine workmanship and superior quality and win the unanimous approvals of the customers all over the world.

#### 1.Introduction of Polyester fiber acoustic panel

Polyester fiber acoustic panel is synthesized by high temperature and high pressure by needle punching processing, and the porosity is above 90%. We also have patent technique for permanent fire retardant with our acoustic panels. There are more than 44 colors for you to select. You can also cut the acoustic board into any shape as your requirements.

It is designed primarily for commercial interiors:

as a perfect replacement panel for textile-covered tiles in workstation systems

to provide a lighter, more flexible and recyclable wall panel and demountable partitioning system

an acoustic panel system

a sustainable substitute for ceiling tiles and soft floor applications.

Our Polyester fiber acoustic panel can be used in many public places like cinema, theaters, dance halls, auditorium, multi-purpose hall, gymnasium etc. The sound absorption property of Polyester fiber acoustic panel is good in the range of middle and high frequency. It has the advantages of heat insulation, fire retardant, dust prevention, light weight and no decay, also has better sound absorption effect, high strength, good decoration, easy installation, environmental friendly.

Due to it being a finished surface in itself, Echo Panel reduces costs in labor and materials in many applications, including workstations and wall panel.

## 2.Specification Of Polyester fiber acoustic panel

Product Name	Eco friendly wall panel
Material	100% Polyester Fiber
Density	200kg/m <sup>3</sup>
Weight	1.8kg/m <sup>3</sup>
Size	1220*2420mm
Thickness	3mm - 15mm or customized thickness
Flame retardant (CNS)	B1
FSI	Class A
NRC	0.85-0.95
