

## Flame Retardant Wall Carpet

Flame Retardant Wall Carpets are Strong sound absorption and sound insulation effect, resistance to ozone, oxygen, light and weather aging, excellent weather resistance for indoor use, and a life span of more than 10 years

Flame Retardant Wall Carpets are available in Various colors , with high insulation performance, dielectric constant 3-3.2, breakdown voltage 20-50KV/MM

Flame Retardant Wall Carpets Specifications; width 1500mm

### Buy Discount Flame Retardant Wall Carpet CE

Fast and fantastic quotations, informed advisers to help you choose the correct products that suits all your needs, a short manufacturing time, responsible good quality control and distinct companies for paying and shipping affairs for Best Price for China Flame Retardant Wall Carpet, We fully welcome customers from all over the world to establish stable and mutually beneficial business relationships, to have a bright future together. Best Price for China Carpet and Wall to Wall Carpet price, We can give our clients absolute advantages in product quality and cost control, and we have full range of molds from up to one hundred of factories. As product updating fast, we succeed in developing many high quality products for our clients and get high reputation.

#### 1. Product Introduction of Flame retardant Wall Carpet

Flame retardant Cinema Wall Carpets are made by needle punching and other processes to make different fibers interweave and entangle each other to standardize the fabric, so that the fabric is soft, plump, thick, and stiff to achieve different thicknesses to meet the requirements of use. , Trimmed, packaged in rolls.

1. Material composition: polyester staple fiber and polypropylene staple fiber.
2. Common colors: black, gray, red, blue, yellow, pink, green, brown.
3. Material appearance: striped on one side and flame retardant coating on the other.

## 2. Specification of Flame retardant Wall Carpet

Core	Polyester
Thickness	5-7mm
Width	1.5m
Weight	310-350
Function	Absorb Low Frequency Sound
Feature	Flame retardant

## 3 .Features of Flame retardant Wall Carpet

Main performance: no ball, no lint, good flatness, good flame retardant effect. Sound absorption effect: The fiber-like appearance has good sound absorption. The carpet is mostly used on the wall below 1.2 meter, it is the good material to absorb low frequency noise. And it is not easy to get dirty at the lower position.

#### **4 .Applications of Flame retardant Wall Carpet**

The wall carpet is the ideal panel to be used in public place, especially for those places which has high safety requirement. For example, Cinema, theater, healthcare center, shopping malls, clubs, education room, and stadium, canteens, and leisure center. It can reduce the sound reverberation and make the sound more clear

#### **5. The Advantage of Qdboss Acoustic Flame retardant Wall Carpet**

Qdboss Acoustic has the patent technology to make the wall carpet flame retardant there are various flame retardant technologies, such as carton coating, soaking as well as flame retardant

cloth. We also have the cutting machine to make different shapes to make more possibilities on the wall.

And we have passed the SGS first test in accordance with the procedure specified in BS476 Part6:1989+A1:2009 incorporating corrigendum No. 1:2014 "Fire tests on building materials and structures- part 6: Method of test for the fire propagation for products".

## 6. Qualification of Flame retardant Wall Carpet

We have 7 modern workshops and production line, with patent technology to make the stable products. Qdboss produces flame retardant Flame retardant Wall Carpet, fabric wrapped fiberglass acoustic panel, fiberglass acoustic ceiling. We have different production lines for different method of flame retardant process, such as carton coating process, flame retardant soaking process, fiberglass fabric process, to meet the different requirements from the clients.
