3. Qualification of Office Acoustic Baffle

We have 7 modern workshops and production line, with patent technology to make the stable products. Qdboss produces flame retardant Office Acoustic Baffle, fabric wrapped fiberglass acoustic panel, fiberglass acoustic ceiling.

4 Further processing of the Office Acoustic Baffle

The finished panel is 2420*1220mm, rectangle shape. We have the blade cutting station and laser cutting machine. And the panel can be cut to different sizes such as 1200x1200, 1200x600, 600x600, 300x300, or in round, hexagon shape, or any irregular shapes.

The four edges can be beveled, the connecting parts looks more natural on the wall in this way. The white color can also be printed with patterns or pictures, to make it more decorative.

5 Packing of Office Acoustic Baffle

We have standard carton packing for the full size polyester fiber panel (1220x2420*9mm), 10 pieces per carton, and the carton size is 2450x1250x105mm. Custom size cartons can also be made according to the sizes required by the client. And non-fumigation pallet can also be used upon request

6 How do the acoustic baffle work?

There are a large number of tiny interconnected pores inside the baffle. Acoustic waves can penetrate into the baffle along these pores, and frictional action with the material, converts sound energy into heat energy. After friction, the sound energy fades and less reverberation.

7 Why Choose Qdboss Acoustic Office Acoustic Baffle
