

Polyester Acoustic Panel Painting

Polyester Acoustic Panel Painting is synthesized by high temperature and high pressure by needle punching processing, and the porosity is above 90%.

Cheap Polyester Acoustic Panel Painting Made in China

Sticking to the principle of "Super Good quality, Satisfactory service", We are striving to become an excellent organization partner of you for OEM Manufacturer China Polyester Acoustic Panel Painting with SGS Certification, Top quality, timely company and Aggressive cost, all win us a superior fame in xxx field despite the international intense competition. OEM Manufacturer China Acoustic Ceiling Baffles, Acoustic Ceiling Clouds, With a state-of-the-art thorough marketing feedback system and 300 skilled workers' hard work, our company has developed all kinds of solutions ranging from high class, medium class to low class. This whole selection of fine products offers our customers different choices. Besides, our company sticks to high quality and reasonable price, and we also give good OEM services to many famous brands.

1.Introduction of Polyester fiber acoustic panel

Polyester fiber acoustic panel is synthesized by high temperature and high pressure by needle punching processing, and the porosity is above 90%. We also have patent technique for permanent fire retardant with our quality acoustic panels. There are more than 44 colors for you to select. You can also cut the acoustic board into any shape as your requirements.

Our Polyester fiber acoustic panel can be used in many public places like cinema, theaters, dance halls, auditorium, multi-purpose hall, gymnasium etc. The sound absorption property of Polyester fiber acoustic panel is good in the range of middle and high frequency. It has the advantages of heat insulation, fire retardant, dust prevention, light weight and no decay, also has better sound absorption effect, high strength, good decoration, easy installation, environmental friendly.

2. Specification Of Polyester fiber acoustic panel

Product Name	Polyester Acoustic Panel Painting
Material	100% Polyester Fiber
Density	200kg/m ³
Weight	1.8kg/m ³
Size	1220*2420mm
Thickness	3mm - 15mm or customized thickness
Flame retardant (CNS)	B1
FSI	Class A
NRC	0.85-0.95
ECO Grade	E1
Certificates	American CA117, British BS5852, Australian AS1530, CE
Colors	More than 44 colors available or customized colors

3. PRODUCT APPLICATION

- (1). Sound-adsorbing wall panel and suspended ceiling
- (2). Interior wall decorative panel
- (3). Polyester Acoustic Panel Painting is Insulation materials
