1. Product Introduction of Polyester Sound Absorbing panels

Polyester Sound Absorbing panel is a new type of decorative sound-absorbing material, which is made of dense and porous sound-absorbing board by hot pressing of polyester fiber. Its full-frequency sound-absorbing function is very significant. The material itself is environmentally friendly, moisture-proof, anti-deformation, fire-proof, scrub-resistant, and has a certain strength and toughness. It can cushion the impact and effectively protect the human body from accidental impact on the wall. The processing of a variety of colors and patterns makes the polyester fiberboard more decorative effects, which can meet the requirements of different personalized decoration. It become the preferred sound-absorbing material for interior decoration.

2. Specification of Polyester Sound Absorbing panels

Core	Polyester Fiber
------	-----------------

3 .Applications of Polyester Sound Absorbing panels

The polyester fiber panel is widely used in the following areas: Cinema, theater, healthcare center, shopping malls, clubs, education room, stadium, home decoration, office, baffle, home theater, meeting room. It can provide a safe, quite and delightful environment for the people inside.

4. The Advantage of Qdboss Acoustic Polyester Sound Absorbing panels

Qdboss Acoustic has the patent technology to make the polyester fiber panel flame retardant during production. That's to say, our panel is flame retardant after production. The performance is as good as the panel made of FR fibers, while the cost is half. Unlike the old socking method, we can arrange the shipment as soon as the production. More environment friends, no smell, not sticker or wet on the surface.

5. Further processing of the Polyester Sound Absorbing panels

www.qdbossacoustic.com

The finished panel is 2420*1220mm, rectangle shape. We have the blade cutting station and laser cutting machine. And the panel can be cut to different sizes such as 1200x1200, 1200x600, 600x600, 300x300, or in round, hexagon shape, or any irregular shapes.

The four edges can be beveled, the connecting parts looks more natural on the wall in this way.

The white color can also be printed with patterns or pictures, to make it more decorative.

6 Packing of Polyester Sound Absorbing panels

We have standard carton packing for the full size polyester fiber panel (1220x2420*9mm), 10 pieces per carton, and the carton size is 2450x1250x105mm. Custom size cartons can also be made according to the sizes required by the client. And non-fumigation pallet can also be used upon request
