Buy Discount Print Polyester Fiber Acoustic Panel CE

With advanced technologies and facilities, strict good quality manage, reasonable rate, superior assistance and close co-operation with shoppers, we have been devoted to supplying the very best price for our consumers for China New Product China Print Polyester Fiber Acoustic Panel for Concert Hall, Our firm warmly welcome friends from everywhere in the globe to visit, examine and negotiate business enterprise. China New Product China Acoustic Panel, Decorative Panel, With the support of our highly experienced professionals, we manufacture and supply best quality goods. These are quality tested at various occasions to ensure only flawless range is delivered to customers, we also customize the array as per the have to have of customers to meet the requirement of customers.

1.Introduction of Polyester fiber acoustic panel

Polyester fiber acoustic panel is synthesized by high temperature and high pressure by needle punching processing, and the porosity is above 90%. We also have patent technique for permanent fire retardant with our acoustic panels. There are more than 44 colors for you to select. You can also cut the acoustic board into any shape as your requirements.

It is designed primarily for commercial interiors:

as a perfect replacement panel for textile-covered tiles in workstation systems

to provide a lighter, more flexible and recyclable wall panel and demountable partitioning system

a sustainable substitute for ceiling tiles and soft floor applications.

Our Polyester fiber acoustic panel can be used in many public places like cinema, theaters, dance halls, auditorium, multi-purpose hall, gymnasium etc. The sound absorption property of Polyester fiber acoustic panel is good in the range of middle and high frequency. It has the advantages of heat insulation, fire retardant, dust prevention, light weight and no decay, also has better sound absorption effect, high strength, good decoration, easy installation, environmental friendly.

Due to it being a finished surface in itself, Echo Panel reduces costs in labor and materials in many applications, including workstations and wall panel.
