

Soundproof Panels

Soundproof Panels are synthesized by high temperature and high pressure by needle punching processing, and the porosity is above 90%.

China Discount Soundproof Panels Price

We have been experienced manufacturer. Winning the majority of the crucial certifications of its market for Good quality China Soundproof Panels, We sincerely welcome all guests to setup business enterprise interactions with us around the basis of mutual positive aspects. Remember to speak to us now. You'll get our qualified reply within just 8 several hours. Good quality China Fireproof Wall Panel, Fireboard, We warmly welcome your patronage and will serve our clients both at home and abroad with goods of superior quality and excellent service geared to the trend of further development as always. We believe you will benefit from our professionalism soon.

1.Introduction of Polyester fiber acoustic panel

Polyester fiber acoustic panel is synthesized by high temperature and high pressure by needle punching processing, and the porosity is above 90%. We also have patent technique for permanent fire retardant with our acoustic panels. There are more than 44 colors for you to select. You can also cut the acoustic board into any shape as your requirements.

Our Polyester fiber acoustic panel can be used in many public places like cinema, theaters, dance halls, auditorium, multi-purpose hall, gymnasium etc. The sound absorption property of Polyester fiber acoustic panel is good in the range of middle and high frequency. It has the advantages of heat insulation, fire retardant, dust prevention, light weight and no decay, also has better sound absorption effect, high strength, good decoration, easy installation, environmental friendly.

2. Specification Of Polyester fiber acoustic panel

Product Name	Soundproof panels
Material	100% Polyester Fiber
Density	200kg/m ³
Weight	1.8kg/m ³
Size	1220*2420mm
Thickness	3mm - 15mm or customized thickness
Flame retardant (CNS)	B1
FSI	Class A
NRC	0.85-0.95
ECO Grade	E1
Certificates	American CA117, British BS5852, Australian AS1530, CE
Colors	More than 44 colors available or customized colors

3. PRODUCT APPLICATION

- (1). Sound-adsorbing wall panel and suspended ceiling
- (2). Interior wall decorative panel
- (3). Soundproof panels is Insulation materials

Training room
